

Lab 1a: Add and Use Skills-Out of the Box

In this lab, you will add and use a Box skill to get file content. Using this, you will be able to access the historic sales file for the procurement scenario.

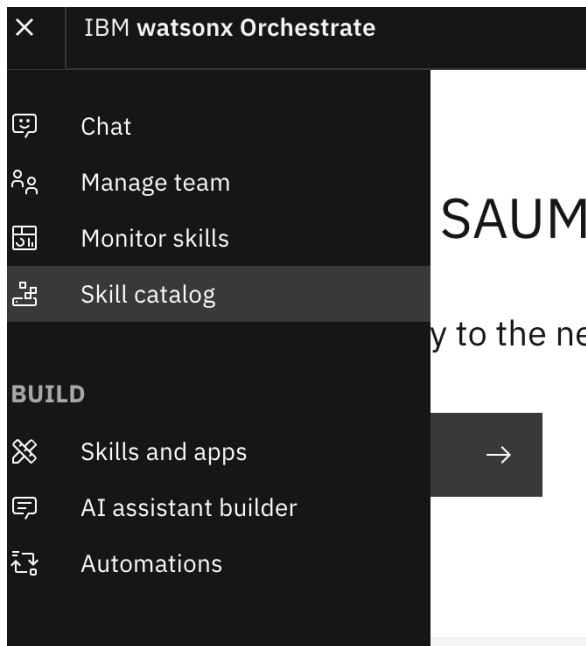

Add skill from catalog

1. Go to the menu from watsonx orchestrate home page.

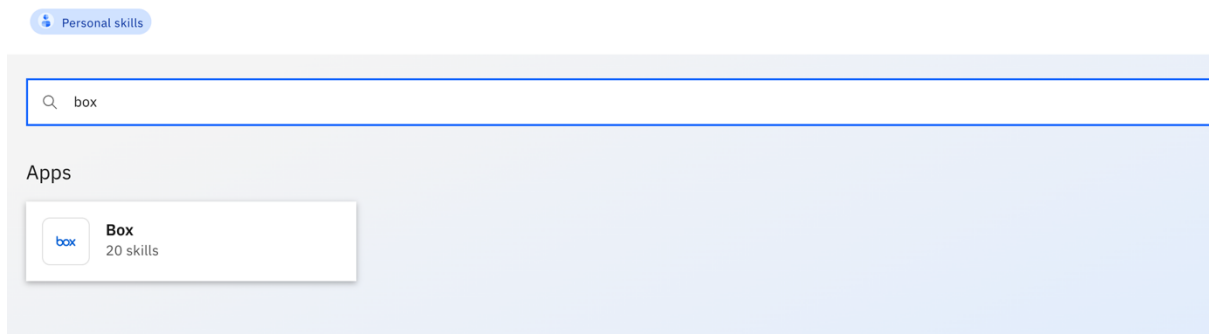

2. Go to Skill Catalog

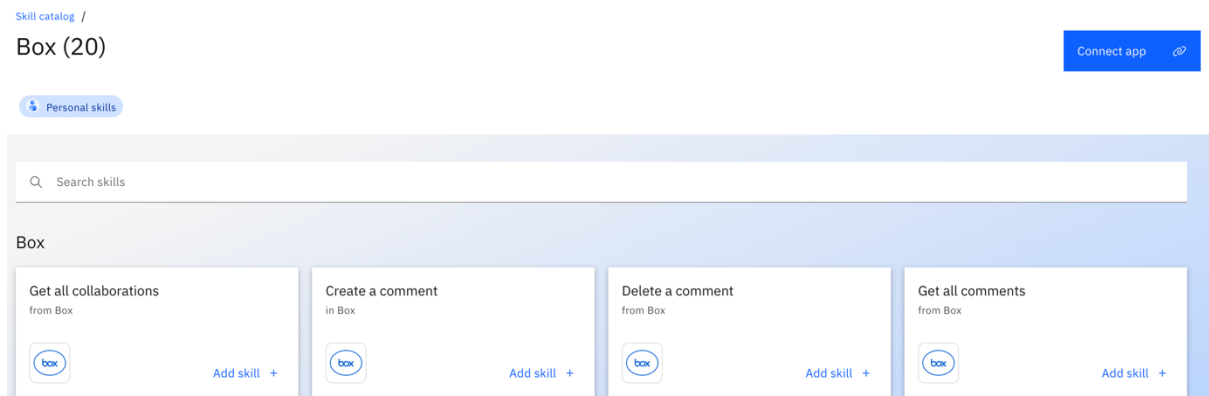

3. Search for box and click on it to see the skills for Box app.

Skill catalog

Skills are grouped by app. Select an app to see all the skills that use that app.

4. Click on Connect App.

5. Connect as Non-admin user
